PREFACE.

This book is compiled from the Records in the Brand Recorder's office at Medicine Hat. While the greatest possible care has been taken to ensure accuracy, it is quite possible, where so many brands are involved, that mistakes may have occurred. Where such are found, the Recorder will be glad to have them pointed out for correction.

All renewals and re-issues of old brands, and brands allotted for the first time, as well as transfers and changes, recorded between the 1st of January 1919, and the 31st of December 1920, are included in this issue.

Cattle brands are arranged separately from horse brands. The general scheme of arrangement followed, is alphabetical and numerical. In every case the first letter or numeral of a brand determines the place of that brand in the book. Thus, a brand of which the first letter is "A" will be found under that letter, while a brand of which the first design is the figure "4" will be found under that numeral. For instance, the brand A4 would be found under the letter A and among the two-character brands, while the brand 4A would be found under the numeral 4. Single-character brands precede two-character brands in arrangement, and two-character brands precede three-character. Brands of one or more arbitrary designs, that cannot be otherwise classified, will be found at the back of the horse or cattle sections respectively; but any brand, containing a letter or numeral with one or more arbitrary designs either before or after it will be found under the letter or numeral.

JAMES WILSON,

Recorder of Brands.
